

MOHAMMED SIDDIQ M S

Research and Development Engineer | Embedded Systems & IoT

Mobile: [+91 6383378324](tel:+916383378324) | [+971582789922](tel:+971582789922)
Nationality: INDIAN
Email: ms.mohammedsiddiq.uae@gmail.com
LinkedIn: www.linkedin.com/in/siddiqms
Portfolio: <https://mohammedsiddiqms.vercel.app/>
Location: DUBAI, UAE
Languages: English | Tamil | Malayalam
Visa Status: UAE Visit Visa – 57 days, valid from 5 October 2026 to 30 November 2026.
Degree: Electronics & Communication Engineering (ECE), UAE Attested.
Passport Expiry: 1 December 2034

PROFESSIONAL SUMMARY

Electronics & Communication Engineer with 2+ years of hands-on experience in **embedded systems, IoT, and robotics R&D**. Proven track record designing and prototyping embedded/IoT solutions from concept to deployment, leading a national-level hackathon team, and delivering client web projects end-to-end. Seeking to bring cross-disciplinary engineering and problem-solving skills to a technology-driven role in the UAE.

CORE SKILLS

- **Embedded Systems:** Embedded C, Python, Microcontrollers (Arduino Uno, Nano, Mega, Esp32, Esp8266), Basics of ROS2
- **IoT & Automation:** IoT Application Development, RPA (UiPath), Industrial IoT
- **Robotics & 3D Design:** Robotics Design, Automation, Smart Plant 3D Design, CADWorx
- **Web Development:** HTML, CSS, JavaScript, Responsive & SEO-Friendly Websites
- **Professional Skills:** Leadership, Problem Solving, R&D, Project Management, Collaboration

PROFESSIONAL EXPERIENCE

Research & Development Engineer

2023 – Present

Jeesabot Robotics LLP

- Designed and developed robotics and embedded system prototypes within a cross-functional R&D team.
- Applied Embedded C and IoT principles to deliver engineering solutions in live production environments.
- Drove product innovation cycles end-to-end, covering design, testing, and iterative improvement.

Project Lead – Smart Minds Hackathon

2022 – 2023

AIC RAISE Business Incubator, Coimbatore

- Led a multidisciplinary team to develop and pitch technology solutions at a national-level competition organised by NITI Aayog, securing **1st Runner-Up**.
- Managed project timelines, prototyping, and stakeholder presentations under competition deadlines.

KEY PROJECTS

- **Lumin Accumulator, Digital Clock & Hybrid DJ System:** Multi-functional embedded system integrating energy accumulation, timekeeping, and audio mixing.
- **Transceiver Charger for Electric Vehicles:** Wireless EV charging system with PIR-based border surveillance.
- **E-Commerce Bargaining Bot & On-Grid Panel:** Automated dynamic-pricing negotiation bot with off-grid energy monitoring panel.
- **Vertical Blade Turbine & Patient Health Monitoring System:** Renewable energy prototype combined with IoT-based real-time health monitoring.
- **Aura Robot Design:** Smart desktop robot displaying weather updates and acting as an interactive assistant.
- **Women's Safety SOS System:** One-touch SOS alert with real-time location sharing to nearby police stations.
- **Autonomous Delivery & Obstacle-Avoidance Robots:** Ultrasonic-sensing navigation for object transport between predefined locations.
- **Nano Satellite (ESP32-Based):** Prototype for environmental monitoring, sensor data collection, and wireless telemetry.
- **Smart Street Lighting & Cold Storage Monitoring Systems:** Automated lighting control and temperature/humidity tracking.
- **Smart Door Lock System:** Secure remote access and real-time monitoring.

EDUCATION

B.E., Electronics & Communication Engineering — CGPA 8.89 (Academic Topper)

2020 – 2024

Rohini College of Engineering and Technology

Higher Secondary (HSC) — 80% | SSLC — 89.8%

2018 – 2020

Good Shepherd Matric Higher Secondary School

ACHIEVEMENTS & AWARDS

- **Visionary of the Year Award 2025** — JeesaBot Robotics LLP
- **Runner-Up, Smart Minds Hackathon 2023 (National Level)** — AIC RAISE & NITI Aayog, Coimbatore
- **Title Winner, Rohini Hackathon 2023** — Entudio Private Limited, Tirunelveli
- **Runner-Up, TEKYON'23** — Court Road Networkz Systems, Nagercoil
- **Mini Project of the Year Award 2022 | Academic Topper Award** — B.E./ECE

INTERNSHIPS & TRAINING

RPA (UiPath) — Honeywell | IoT Application Development — AB Technologies | Web Development — Nitroware Technologies
Embedded Application Development — Uniq Technologies | Industrial Embedded Systems with IoT — NSIC
EV Charging Infrastructure — Relux | Digital Marketing — Google Digital
